KRISHNA SHARMA

Cloud & DevOps Engineer

Dublin, Ireland | +353 877 888 665 | kasey.gnr@icloud.com
LinkedIn: www.linkedin.com/in/krishna-sharma98

PROFESSIONAL PROFILE

Cloud & DevOps engineer with experience operating AWS and Linux infrastructure, building Jenkins and Docker deployment workflows, and automating provisioning with Terraform and Bash. Background in monitoring, incident troubleshooting, VMware, web hosting and application support.

TECHNICAL SKILLS

AWS: EC2, EBS, S3, VPC, IAM, Security Groups, NACLs, CloudWatch, Cost Explorer

CI/CD & infrastructure as code: Jenkins, Git, Docker, Dockerfiles, Terraform

Linux & systems: Ubuntu, Debian, CentOS, systemd, SSH, patching, Bash, Cron, VMware, Windows Server

Monitoring & reliability: Grafana, log analysis, alerting, incident response, root-cause analysis

Networking & hosting: TCP/IP, DNS, DHCP, firewalls, Nginx, Apache, PHP-FPM, cPanel/WHM, SSL/TLS

Development & databases: SQL, MySQL, MariaDB, PHP; Flask and SQLAlchemy (project experience); Python (basic/working knowledge)

Additional knowledge: Kubernetes fundamentals, Ansible, Prometheus; Azure and GCP fundamentals

PROFESSIONAL EXPERIENCE

DevOps & Infrastructure Engineer

AGAMI-TECH | Mumbai, India | Jul 2024 - Feb 2025

- Built and supported Jenkins CI/CD pipelines with Git and Docker to standardise application builds and deployments.
- Containerised FreeSWITCH media-server components into reusable Docker images, reducing host-specific installation steps.
- Maintained Terraform-managed AWS configurations for UAT and production; supported EC2, EBS and S3 workloads, migrations and storage.
- Configured AWS VPC, IAM and network security controls; monitored workloads with CloudWatch and Grafana and reviewed expenditure in Cost Explorer.
- Automated Linux health checks and maintenance with Bash and basic Python scripts; investigated incidents and documented operational procedures.

Technical Support Engineer

AGAMI-TECH | Mumbai, India | Dec 2022 - Jun 2024

- Diagnosed Linux, application, hosting and network issues; analysed logs and reproduced defects for engineering teams.
- Supported server access administration, deployments, routine maintenance and incident communications.
- Automated recurring support tasks with Bash and created troubleshooting guides and operational handover documentation.

PROFESSIONAL EXPERIENCE - CONTINUED

Linux System Administrator

REDDUSTTEK | Nashik, India | Jan 2021 - Aug 2022

- Administered Linux and Windows Server systems, performing patching, access management, service configuration and performance troubleshooting.
- Provisioned and maintained VMware virtual machines; supported storage, scheduled backups and recovery operations.
- Supported Nginx, Apache and PHP-FPM hosting, including cPanel/WHM, DNS, SSL/TLS and MySQL/MariaDB connectivity.
- Diagnosed TCP/IP, DNS and DHCP issues; automated recurring Linux maintenance with Bash and Cron.

Technical Support Engineer Intern

TECHNOKRAFT | Nashik, India | Dec 2018 - Dec 2020

- Provided first-line support for software, workstations, hardware and basic network issues.
- Assisted with configuration, user setup, maintenance, escalation and resolution documentation.

SELECTED ENGINEERING & ACADEMIC PROJECTS

AWS Infrastructure with Terraform
Maintained UAT and production infrastructure configurations, covering AWS compute and storage operations, network/access controls and CloudWatch monitoring.

FreeSWITCH Containerisation
Packaged Linux media-server components into reusable Docker images for portable installation and container-based release workflows.

Jenkins & Docker Deployment Automation
Implemented repeatable build and deployment workflows using Jenkins, Git, Docker and Bash to reduce manual release effort.

Linux Monitoring & Maintenance Automation
Developed Bash scripts, scheduled checks and procedures for Linux health monitoring, log review and recurring maintenance.

GomataVision CRM
Built a Flask CRM for property developers to manage apartment inventory, client leads, users and sales workflows, using SQLAlchemy, Flask-Login and role-based access.

EDUCATION

MSc Information Systems with Computing

Dublin Business School | Ireland

Bachelor of Computer Applications

Glocal University | June 2018

CERTIFICATION

AWS Certified Cloud Practitioner | Earned November 2022
